Create space with purpose with Connected Workplace

Hybrid work promises the best of worlds – the convenience and ease of working from home, the opportunity to engage with co-workers in the office and the flexibility to choose how to achieve best outcomes. The workplace of the future straddles the physical and digital worlds and requires a new set of capabilities. Avanade **Connected Workplace** solutions bridge this divide. Using your existing infrastructure, we'll help you create a more sustainable workplace that transforms collaboration, reduces costs and easily adapts to your employees' evolving needs to deliver benefits that can include:

15% Reduction in energy expenditure	**30%** Savings from predictive maintenance	**76%** Increase in employee satisfaction	**10%** Improvement in cognitive performance

People

Increased productivity

Reduce up **30%** of employee illnesses and save around **$3,500 per employee** annually through improved occupant comfort and satisfaction

Increased safety & security

Enhance building and occupant security with the combination of **real-time people tracking, fire and life safety systems** and **biometric access**

Asset investment planning

Improve planning with the continuous capture of **user needs, asset lifecycle, project progress, duplicate asset requests** and more

Increased safety & security

Lower insurance premiums and **save around 6% in compliance-related costs** with access to sensor data and records

Space

Improved space utilization

Increase space usage by 10% and accommodate more tenants with dynamic, real-time space management and workspace reservation

Reduced maintenance

Lower maintenance costs by an average of 14% and **reduce unplanned downtime by 9%** with predictive maintenance

Cost management

Improve cost control by using digital twin to visualize usage costs and simulate impact

Sustainability

Energy efficiency

Lower energy costs by around 18% with real-time HVAC controls and smart meters, **saving around 19–26% on cooling** and **48–67% on lighting**
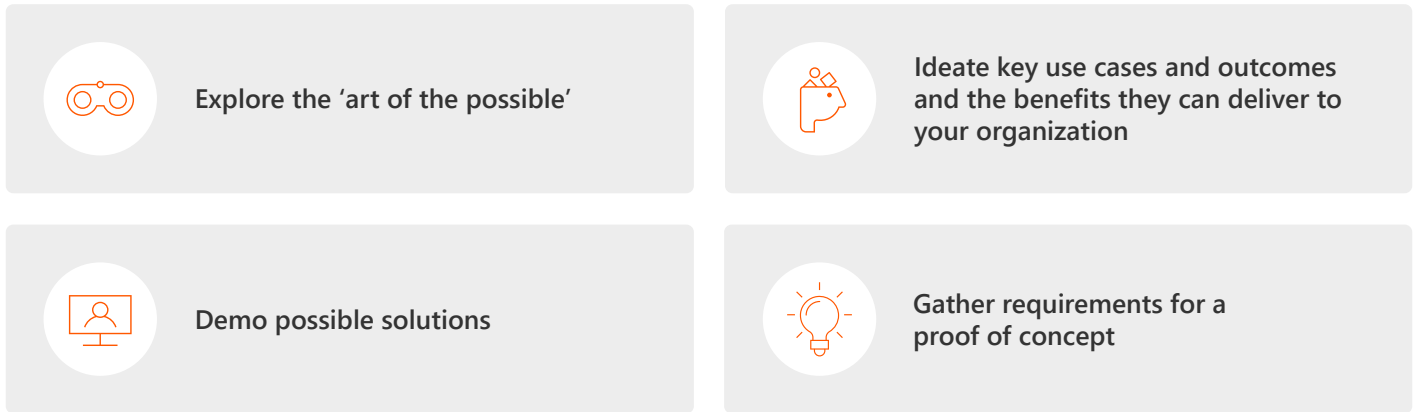

Enhanced sustainability

Detect and predict environmental changes in real time to protect **occupant health, reduce carbon emissions** and **optimize energy use**

Data-driven designs

Use data-driven insights to continually reconfigure your building and create a **fit-for-purpose hybrid workplace**

How to get started

Join Avanade for a complimentary half-day workshop

Explore the 'art of the possible'

Ideate key use cases and outcomes and the benefits they can deliver to your organization

Demo possible solutions

Gather requirements for a proof of concept

Or contact us to begin your proof of concept

What's included

- 60 to 90-day trial
- Hardware and installation support
- Real-time and historical insights
- Quick value realization
- Low commitment option
- Demonstrated ROI

Potential outcomes

- Identify cost savings from building utilization and energy consumption
- Understand opportunities to improve physical collaboration
- Understand sustainability goals and meet new government legislation
- Understand indoor air quality trends and create a safe space to work

Define	Deploy	Discover
Scope and timeline	Hardware and software installation	Trial data and insights
