

Leverage the cloud

Embrace new and innovative ways to conduct business by leveraging the power of the Microsoft Azure cloud

At Avanade, we help you take advantage of the latest and greatest infrastructure and platform services Azure has to offer, from Arc to Kubernetes, Functions to Synapse and the latest Artificial Intelligence developments, our expertise is unrivalled. We help clients to migrate to the cloud, modernize legacy applications and develop new cloud native applications that deliver real business value.

Our Azure Cloud services can help you to:

Migrate legacy applications to the cloud, to take advantage of elasticity and agility, allowing you to respond rapidly to changing demand

Reduce technical debt and leverage historical investments to gain maximum value from the cloud

Reduce IT costs and lower your carbon emissions

Improve time to market through modern engineering practices and managed services to support your business goals

Create new business models and routes to market with rapid cloud native application design

Take your applications and services to the cloud

Cloud services are changing the way companies do business. From compute power and data storage to insights, AI and intelligent applications, the possibilities of cloud-based solutions are almost endless. It's no surprise that leading organizations are accelerating further into the Azure platform as a way to balance cost and agility, and solve a variety of business needs.

Avanade is uniquely qualified to help you migrate your existing applications to the Microsoft Azure platform through a combination of market leading cloud vision, industry insight, business acumen and delivery skills. As a result, you'll be able to migrate to the cloud more quickly and efficiently-and start reaping its benefits faster.

Our range of Azure client engagements include:

- Modern Architecture Workshops
- Azure Migration engagements
- Azure Foundation Assessments
- Cloud Optimization Workshops
- Application Innovation Engagements
- Cloud Security Workshops

Work with Avanade to migrate and innovate with confidence

Avanade cloud services can help you boost your return on investment, giving you an optimized total cost of ownership. We know how to migrate and modernize workloads effectively at scale and which applications to prioritize. We'll learn about your business, understand your goals, and help to build your roadmap whether you need simple rehosting or you're ready to embrace a cloud platform for practical innovation.

Our cloud and application services for Microsoft Azure include a proven process of evaluation, assessment, proof-of-concept and delivery. Our highly skilled and experienced workforce can deliver the right mix of project support at scale so you can achieve the full value of the Microsoft Azure platform quickly and predictably. In addition, our flexible delivery process includes both on-shore architects and off-shore developers who use industrialized delivery processes and tools to support migrating and building applications on the Azure platform.

The Avanade advantage

Avanade and our partner company Accenture are Microsoft's global system integrator partners of choice for the Microsoft Azure platform. Through an unmatched mix of vision, insight and experience, we already possess the cloud migration and development skills customers are looking for and we're putting these skills to work every single day. With our unique and unrivalled experience, we can help you achieve your business goals faster.
