Managing Azure cost with FinOps

Do What Matters with Cloud Optimization

You've made it to the cloud, but have you unlocked its value?

Avanade will help you to securely unlock the value of the Microsoft cloud, to increase business agility and be better prepared for disruption. In a digital world we enable clients to extract maximum value from their cloud platforms and take control of expenditure.

Uncontrolled resources usage

Budget roadblocks And cost inefficiencies

+70%

Planned cloud budget

Uncontrolled cloud consumption

Cost management

Actual Cloud cost
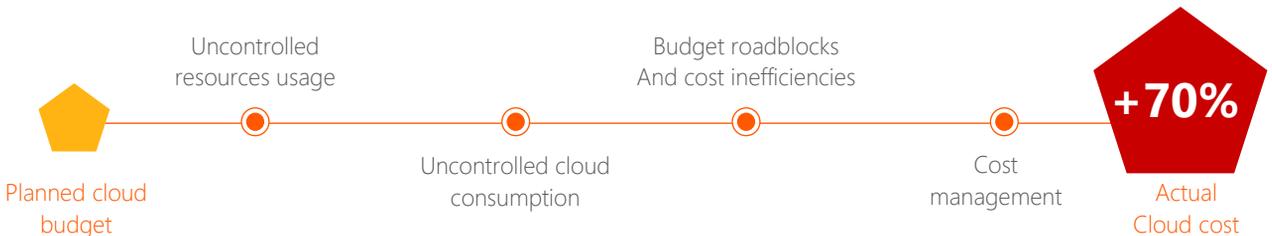

45% of organizations that perform a lift-and-shift to cloud IaaS without optimization will overspend by 70 % during the first 18 months.

- Gartner, 2019

Expertise and assets

You can address cloud spend by leveraging our comprehensive range of FinOps services:
