

Clinical Continuity: Spend less time on logistics; more time with patients

Healthcare providers are heroes on the front lines delivering medical services in times of distress. The ability to quickly adapt and manage unpredictable situations at speed is essential.

Delays between clinician-to-clinician and clinician-to-patient interactions can have a negative impact to clinical outcomes. Our Clinical Continuity solutions, built on Microsoft platform, help care teams connect and share information quickly, enabling patients to receive the right care at the right time, from people with the right skills.

This single secure, compliant cloud-based platform streamlines care coordination, making it easier for communication and multi-disciplinary collaboration, when time is most critical. When care teams spend less time on logistics, they can spend more time with patients.

Empower

Monitor and maintain operations for a variety of tasks such as: supply availability, schedule changes, medication management, transitions in care and more

Collaborate

Bring together all the care team members in one environment with real-time messaging through mobile text or video

Streamline

Reduce travel and physical meetings of employees, providers and patients to improve speed and scale of patient care as well as reduce risk of spreading contagions

Coordinate

Connect clinicians and other personnel virtually via Microsoft Surface Hubs, desktops, laptops, and mobile devices

Engage

Keep employees and care givers informed real time in quickly evolving situations by providing the latest response procedures and reference materials from a customized set of data sources and applications

About Avanade

Avanade is the leading provider of innovative digital and cloud services, business solutions and design-led experiences on the Microsoft ecosystem. With 38,000 professionals in 25 countries, we are the power behind the Accenture Microsoft Business Group, helping companies to engage customers, empower employees, optimize operations and transform products, leveraging the Microsoft platform. Majority owned by Accenture, Avanade was founded in 2000 by Accenture LLP and Microsoft Corporation. Learn more at www.avanade.com.
